This book is dedicated to everybody who cannot afford  
buying books by profit oriented publishers.

# 1 Guidelines for Authors

The following sections describe the layout of various items that play a role in typesetting.

## 1.1 Figures

## 1.2 Tables

## 1.3 References

We use the *Unified Style Sheet for Linguistics*, which is described here: <http://celxj.org/downloads/UnifiedStyleSheet.pdf>. The  $\text{\LaTeX}$  file is contained in the  $\text{\LaTeX}$  classes that are used for typesetting Language Science Press books. Please deliver a  $\text{\LaTeX}$  file with all your references together with your submissions.  $\text{\LaTeX}$  can be exported from all common bibliography tools.

The references in your  $\text{\LaTeX}$  file will be typeset correctly automatically. So, provided the  $\text{\LaTeX}$  file is correct, authors do not have to worry about this. But there are some things to observe in the main text. Please cite as shown in Table 1.1.

## 2 L<sup>A</sup>T<sub>E</sub>X

### 2.1 Installation of the **langsci** Class

The L<sup>A</sup>T<sub>E</sub>X class for typesetting Language Science Press books was developed by Timm Lichte with help by Berthold Crysmann and me. It can be downloaded from the GitHub repository at: <https://github.com/langsci/latex>

Place all files and subdirectories from this repository into your local working directory (for advanced installations see Section 2.8).

### 2.2 Using the **langsci** Class

Once you installed the classes in your system, you may look at the file `test.tex` to see how a book can be typeset. The code of this book is available in the directory `Guidelines`. Once you set up your L<sup>A</sup>T<sub>E</sub>X files you can compile them by calling

```
xelatex yourfilename.tex
```

## 2.5.6 Font Issues and Right to Left Scripts

Since we are using X<sub>Y</sub>L<sup>A</sup>T<sub>E</sub>X, all fonts that are installed in the canonical font directories can be used. We are using the font `Linux Libertine`, which is unicode-based and contains a lot of the characters linguists want to use.

### 2.5.6.1 Chinese

- (1) 狗 叫 了。  
 gou3 jiao4 le  
 dog bark ASP/CRS  
 ‘The dog is barking/The dogs are barking.’

```
\usepackage[indentfirst=false]{xeCJK}
\setCJKmainfont{SimSun}

\ea
\glll 狗      叫      了。 \\
      gou3    jiao4    le\\
      dog     bark     ASP/CRS\\
\glt ‘The dog is barking/The dogs are barking.’
\z
```

### 2.5.6.2 Arabic Script

- (2) او مرد را دوست نخواهد داشت.  
 U mard rā dust naxāhad dāšt.  
 He/she man DOM friend NEG.want have  
 ‘He/she will not love the man.’

```
\usepackage{fontspec}\newfontfamily\Parsifont[Script=Arabic]{XB Niloofar}
\usepackage{bidi}
\newcommand{\PRL}[1]{\RL{\Parsifont #1}}

\ea
\PRL{او مرد را دوست نخواهد داشت.} \\
\gll U mard rā dust naxāhad dāšt. \\
      He/she man {\sc dom} friend {\sc neg}.want have \\
\glt ‘He/she will not love the man.’
\z
```

2.5.6.3 IPA Symbols

## 2.6 Bells and Whistles

2.6.1 **varioref**

2.6.2 **german** for Hyphenation

2.6.3 **xspace** and Abbreviations

## 2.7 Software

- BibDesk
- JabRef

## 2.8 Advanced Installation

If you typeset many books for Language Science Press, put the fonts that are contained in the directory `fonts` into your local font directory that is used by Xe<sub>La</sub>TeX. Put the logos from the directory `logos` into the search path for images.

### 2.8.1 Style Files and Multiple Projects

Pathes, shell variables ...

### 3 Publication

Language Science Press books are published on the Document Server of the Freie Universität Berlin together with a Print on Demand option.

Authors have to sign a publication contract with the FU Library. The contract is available here in German: <http://edocs.fu-berlin.de/docs/content/main/autoren/vertraege.xml?XSL.lastPage.SESSION=/content/main/autoren/vertraege.xml&lang=en>. This German contract has to be signed, but there is an English translation of it for reference.
